

## Metlakatla Stewardship Society

### Survey of Metlakatla First Nation Members' views about the Proposed Ksi Lisims LNG Project

The Metlakatla Stewardship Society (MSS) is undertaking a Rights Impact Assessment of the proposed Ksi Lisims LNG Project. The Ksi Lisims LNG is a proposed floating liquefied natural gas (LNG) facility and marine export terminal located at on the northern tip of Pease Island, north of Prince Rupert, BC. Please see that attached hand out for more information about the Project and the Metlakatla-led Rights Impact Assessment.

Your responses to the following questions will help MSS to scope the Rights Impact Assessment on the issues that matter most to Metlakatla members. Your participation in this survey is voluntary and no personal information will be collected or used.

Please answer the following questions to the best of your ability:

- I am a member of Metlakatla First Nation
- I am not a member of Metlakatla First Nation

If you are not a member of Metlakatla First Nation, please describe you association to Metlakatla First Nation and/or the proposed Project:

1. What is your level of concern about the proposed Ksi Lisims LNG Project and how it may impact your territory and your connection to the territory?

- I am very concerned about the proposed Ksi Lisims LNG Project
- I have some concerns about the proposed Ksi Lisims LNG Project
- I don't have any concerns about the proposed Ksi Lisims LNG Project
- I don't know

Please provide reasons for your selection above:

2. Please indicate your level of concern about the Ksi Lisims LNG Project's potential impacts on the following values:

	Very Concerned	Somewhat Concerned	Not Concerned	Don't Know	Please explain
Fishing					
Shoreline harvesting					
Crabbing					

	Very Concerned	Somewhat Concerned	Not Concerned	Don't Know	Please explain
Seaweed picking					
Herring spawn on kelp					
Navigation and safety					
Hunting					

	Very Concerned	Somewhat Concerned	Not Concerned	Don't Know	Please explain
